# Contents

Volume 44, Number 1, January 1990

**Editorial note**
Professor J.C. Waterlow FRS: an appreciation
*J.S. Garrow* 1

**Original Communications**
Recovery of [$^{13}$C]-bicarbonate as respiratory $^{13}CO_2$ in parenterally fed infants
*J.L. Bresson, A. Mariotti, P. Narcy, C. Ricour, C. Sachs and J. Rey* 3

Indicators of biotin status: a study of patients on prolonged total parenteral nutrition
*A. Velázquez, S. Zamudio, A. Báez, R. Murguía-Corral, B. Rangel-Peniche and A. Carrasco* 11

Survey of iodine deficiency in a rural area near Tehran: association of food intake and endemic goitre
*M. Kimiagar, F. Azizi, L. Navai, M. Yassai and T. Nafarabadi* 17

Iron status in a group of Norwegian menstruating women
*B. Borch-Iohnsen, H.M. Meltzer, V. Stenberg and T. Reiskou* 23

Bioavailability daily low dose iron supplements in menstruating women with low iron stores
*B. Borch-Iohnsen, H.M. Meltzer, V. Stenberg, T. Reinskou and K. Trygg* 29

Post-prandial plasma aminograms in the assessment of protein quality for young children: maize and grain amaranth, alone and combined
*G.C. Graham, J. Lembcke and E. Morales* 35

The LMS method for constructing normalized growth standards
*T.J. Cole* 45

Zinc in breast milk during prolonged lactation: comparison between the UK and the Gambia
*C.J. Bates and H. Tsuchiya* 61

Plasma glucose and thiocyanate responses to different mixed cassava meals in non-diabetic Nigerians
*A.O. Akanji, I. Adeyefa, M. Charles-Davies and B.O. Osotimehin* 71

Could saponins be a useful treatment for hypercholesterolaemia?
*D. Oakenfull and G.S. Sidhu* 79

**Book reviews** 89

## Volume 44, Number 2, February 1990

**Original Communications**

Lack of a systematic sustained effect of prolonged exercise bouts on resting metabolic rate in fasting subjects
*J.A. Weststrate, P. Weys, E. Poortvliet, P. Deurenberg and J.G.A.J. Hautvast* 91

Residual effect of graded levels of exercise on metabolic rate
*G.R. Goldberg, A.M. Prentice, H.L. Davies and P.R. Murgatroyd* 99

Body fatness and frame size: The Caerphilly study
*A.M. Fehily, B.K. Butland and J.W.G. Yarnell* 107

Evaluation of near infra-red interactance as a method for predicting body composition
*M. Elia, S.A. Parkinson and E. Diaz* 113

Body protein of patients undergoing haemodialysis
*M.A. Allman, B.J. Allen, P.M. Stewart, N. Blagojevic, D.J. Tiller, K.J. Gaskin and A.S. Truswell* 123

Weight change in middle-aged British men: implications for health
*G. Wannamethee and A.G. Shaper* 133

Plasma antioxidants and coronary heart disease: Vitamins C and E, and Selenium
*R.A. Riemersma, M. Oliver, R.A. Elton, G. Alfthan, E. Vartiainen, M. Salo, P. Rubba, M. Mancini, H. Georgi, J.-P. Vuilleumier and K.F. Gey* 143

Circulating and secretory antibodies to specific food proteins in adults
*S.M. Hampton, J.B. Morgan, M.R. Smith, R. Morris, J. Lovegrove and V. Marks* 151

Bioavailable iron density in French and Spanish meals
*P. Galan, F. Cherouvrier, J. Fernandez-Ballart, C. Marti-Henneberg and S. Hercberg* 157

**Letters to the editor**

Calculation of body fat in the obese by Siri's formula 165

Reply 167

## Volume 44, Number 3, March 1990

**Original Communications**

Some errors inherent in a longitudinal dietary survey revealed by the urine nitrogen test
*B. Hultén, C. Bengtsson and B. Isaksson* 169

Comparison of energy expenditure estimated in healthy infants using the doubly labelled water and energy balance methods
*W.W. Wong, N.F. Butte, C. Garza and P.D. Klein* 175

Differences in dietary intake associated with smoking status
*J.R. Hebert and G.C. Kabat* 185

Urinary riboflavin excretion after a load test in rural China as a measure of possible riboflavin deficiency
*T.A. Brun, J. Chen, T.C. Campbell, J. Boreham, Z. Feng, B. Parpia, T.F. Shen and M. Li* 195

Chronic fetal malnutrition and vitamin A in cord serum
*N.R. Neel and J.O. Alvarez* 207

Comparison of estimates of fat-free mass in normal and obese women from measurements of body potassium, body water and body density
*J.S. Garrow, L. Garby and O. Lammert* 213

Use of the modified relative dose response (MRDR) assay in rats and its application to humans for the measurement of vitamin A status
*S. A. Tanumihardjo, H.C. Furr, J.W. Erdman Jr. and J.A. Olson* 219

Low serum selenium concentration in a healthy population resident in Catalunya: a preliminary report
*F. Fernández-Banares, C. Dolz, M.D. Mingorance, E. Cabré, M. Lachica, A. Abad-Lacruz, A. Gil, M. Esteve, J.J. Giné and M.A. Gassull* 225

A study of protein turnover in preterm neonates using $^{15}N$ enrichment of urinary ammonia
*T. Stack, P. Reeds, T. Preston, S. Hay, D.J. Lloyd and P.J. Aggett* 231

Analysis of selenium content in commercial dietetic products
*K.R. O'Sullivan and P.M. Mathias* 235

Changes in energy expenditure of light physical activity during a 10 day period at 34°C environmental temperature
*L. Garby, O. Lammert and E. Nielsen* 241

Peripheral blood monocyte function in malnourished subjects with pulmonary tuberculosis
*P. Bhaskaram and M.N. Sunderamma* 245

**Letter to the editors**
Glycosylated haemoglobin in children with protein-energy malnutrition 249

**Book reviews** 251

## Volume 44, Number 4, April 1990

**Original Communications**

Assessment of body composition by bioelectrical impedance in children and young adults is strongly age-dependent
*P. Deurenberg, C.S.L. Kusters and H.E. Smit* 261

The effect of psychological stress on diet-induced thermogenesis and resting metabolic rate
*J.A. Westsrate, K. Van der Kooy, P. Deurenberg and J.G.A.J. Hautvast* 269

Human selenium status and glutathione peroxidase activity in north-west England
*D.J. Pearson, J.P. Day, V.J. Suarez-Mendez, P.F. Miller, S. Owen and A. Woodcock* 277

Growth suppression in the *Trichuris* dysentery syndrome
*E.S. Cooper, D.A.P. Bundy, T.T. MacDonald and M.H.N. Golden* 285

The effect of a combination low sodium, low fat, high fibre diet on serum lipids in treated hypertensive patients
*P. Little, G. Girling, A. Hasler, A. Craven and Sir A. Trafford* 293

Effect of fenugreek seeds on blood glucose and serum lipids in Type I diabetes
*R.D. Sharma, T.C. Raghuram and N. Sudhakar Rao* 301

Effect of diarrhoea on dietary intake by infants and young children in rural villages of Kwara State, Nigeria
*K.L. Dickin, K.H. Brown, D. Fagbule, M. Adedoyin, J. Gittelsohn, S.A. Esrey and G.A. Oni* 307

Dietary modulators of blood pressure in hypertension
*R.B. Singh, A.R. Sircar, S.S. Rastogi and R. Singh* 319

**Discussion Paper**

Body mass index and the limits of human survival
*C.J.K. Henry* 329

**Letter to the editors**

The importance of accurate and standardized height and weight measurements in body composition analysis 337

**Book reviews** 339

## Volume 44, Number 5, May 1990

**Original Communications**

Influence of insulin on albumin and non-albumin protein fractional synthetic rates in post-absorptive Type I diabetic patients
*P.J. Pacy, M. Read and D. Halliday* 343

Albumin synthetic rate: a comparison of arginine and alpha-ketoisocaproate precursor methods using stable isotope techniques
*O.S. Olufemi, P. Humes, P.G. Whittaker, M.A. Read, T. Lind and D. Halliday* 351

Reducation *in vitro* of red cell glutathione reproduces defects of cellular sodium transport seen in oedematous malnutrition
*T. Forrester, M. Golden, S. Brand and J. Swales* 363

Self-regulation of food intake among rural Mexican preschool children
*S. Eastwood Garcia, L.L. Kaiser and K.G. Dewey* 371

The relationship of eating frequency and caloric density to energy intake among rural Mexican preschool children
*S. Eastwood Garcia, L.L. Kaiser and K.G. Dewey* 381

Effect of meal frequency on the thermic effect of food in women
*J.L.D. Kinabo and J.V.G.A. Durnin* 389

Glucose-induced thermogenesis in obese subjects with or without familial history of obesity
*S. Verga, S. Buscemi and G. Bompiani* 397

Influence of upper and lower themoneutral room temperatures (20°C and 25°C) on fasting and post-prandial resting metabolism under different outdoor temperatures
*H. Kashiwazaki, Y. Dejima and T. Suzuki* 405

Nutritional status assessment of HIV-positive drug addicts
*P. Varela, A. Marcos, S. Ripoll, A. Requejo, P. Herrera and A. Casas* 415

## Volume 44, Number 6, June 1990

**Original Communications**
The promotive effect of soy sauce on iron absorption in human subjects
*R.D. Baynes, B.J. Macfarlane, T.H. Bothwell, D. Siegenberg, W.R. Bezwoda, U. Schmidt, R.D. Lamparelli, F. Mayet and A.P. MacPhail* 419

Stunting and tissue depletion in Yemeni children
*G. Bågenholm, A.A.A. Nasher and B. Kristiansson* 425

The form of selenium determines the response to supplementation in a selenium replete population
*H.M. Meltzer, G. Norheim, K. Bibow, K. Myhre and H. Holm* 435

Effects of age and intake on vitamin C disposition in females
*J. Blanchard, K.A. Conrad and P.J. Garry* 447

Vitamin D status, parathyroid hormone and sunlight in Turkish, Moroccan and Caucasian children in The Netherlands
*J.F. Meulmeester, H. van den Berg, M. Wedel, P.G. Boshuis, K.F.A.M. Hulshof and R. Luyken* 461

A study on nutrition, growth and development of a high-risk group of children of urban leprosy patients
*K. Saha, K.N. Rao, D. Chattopadhya, V. Lakshmi, S. Gadi and N.D. Dutta Banik* 471

**Short Communication**
Lipid profiles among fish-consuming coastal and non-fish-consuming inland populations
*G. Bulliyya, K.K. Reddy, G.P.R. Reddy, P.C. Reddy, P. Reddanna and K.S. Kumari* 481

**Letter to the Editors**
Erythrocyte EPA as a marker for intake of fish and fish oil 487

## Volume 44, Number 7, July 1990

**Original Communications**
Rice and iron absorption in man
*M. Tuntawiroon, N. Sritongkul, L. Rossander-Hultén, R. Pleehachinda, R. Suwanik, M. Brune and L. Hallberg* 489

Milk tolerance and the malnourished African
*S.J.D. O'Keefe, G.O. Young and J. Rund* 499

Changes in food choices of recently diagnosed insulin-dependent diabetic patients
*A.C. Niewind, R.D. Friele, C. Th. Kandou, J.G.A.J. Hautvast and J.M.P. Edema* 505

Does malnutrition predispose to diarrhoea during childhood? Evidence from a longitudinal study in Matlab, Bangladesh
*M.K. Chowdhury, V.M. Gupta, R. Bairagi and B.N. Bhattacharya* 515

Dietary intakes and activity levels of stunted and non-stunted children in Kingston, Jamaica. Part 1. Dietary intakes
*S.P. Walker, C.A. Powell and S.M. Grantham-McGregor* 527

Dietary and other determinants of lipoprotein levels within a population of 315 Dutch males aged 28 and 29
*M.A.M. Berns, J.H.M. de Vries and M.B. Katan* 535

**Short Communication**
Negligible effects of previous moderate physical activity and changes in environmental temperature on whole body electrical impedance
*L. Garby, O. Lammert and E. Nielsen* 545

**Book Review** 547

## Volume 44, Number 8, August 1990

**Original Communications**

The absence of adapted sodium and potassium transport in erythrocytes of cerebral palsied children with secondary malnutrition
*M.E. Harper, J. Patrick and J.S. Willis* 549

Nutrients excreted in ileostomy effluents after consumption of mixed diets with beans or potatoes. I. Minerals, protein, fat and energy
*A.M. Langkilde, H. Andersson, T.F. Schweizer and I. Torsdottir* 559

Nutrients excreted in ileostomy effluents after consumption of mixed diets with beans or potatoes. II. Starch, dietary fibre and sugars
*T.F. Schweizer, H. Andersson, A.M. Langkilde, S. Reimann and I. Torsdottir* 567

Gastric emptying in infants with or without gastro-oesophageal reflux according to the type of milk
*C. Billeaud, J. Guillet and B. Sandler* 577

Dietary intake and observed activity of stunted and non-stunted children in Kingston, Jamaica. Part II: Observed activity
*J.M. Meeks Gardner, S.M. Grantham-McGregor, S.M. Chang and C.A. Powell* 585

Diet and alcohol in liver cirrhosis: a case-control study
*M. Rotily, J.P. Durbec, P. Berthézène and H. Sarles* 595

**Short Communication**

Urine collection as an alternative to blood sampling: a noninvasive means of determining isotopic enrichment to study amino acid flux in neonates
*L.J. Wykes, R.O. Ball, C.E. Menendez and P.B. Beneharz* 605

**Book review** 609

## Volume 44, Number 9, September 1990

**Original Communications**

Is diarrhoea a major cause of malnutrition among the under-fives in developing countries? A review of available evidence
*A. Briend* 611

Absorption and retention in acute diarrhoea
*M.D. Mann, I.D. Hill and M.D. Bowie* 629

Sodium, potassium, body mass, alcohol and blood pressure in three United Kingdom centres (the INTERSALT Study)
*P. Elliott, S. Rogers, G. Scally, D.G. Beevers, M.J. Lichtenstein, G. Keenan, R. Hornby, A. Evans, M.J. Shipley and P.C. Elwood* 637

Interrelation between whole-body turnover rates of RNA and protein
*G. Schöch, H. Topp, A. Held, G. Heller-Schöch, A. Ballauff, F. Manz and G. Sander* 647

The effect of completely purine-free diet of low sodium content on purine intermediates and end-product
*T. Yamamoto, H. Yokoyama, Y. Moriwaki, S. Takahashi, M. Suda, T. Hada and K. Higashino* 659

Variability in man of the levels of some indices of nutritional status over a 60-d period on a constant diet
*W. van Dokkum, J. Schrijver and J.A. Wesstra* 665

Breast milk folic acid and zinc concentrations of lactating, low socio-economic, Amazonian women and the effect of age and parity on the same two nutrients
*K.K. Lehti* 675

Dietary intervention in breast cancer patients: effects on dietary habits and nutrient intake
*E. Nordevang, E. Ikkala, E. Callmer, L. Hallström and L.-E. Holm* 681

**Short Communication**
Human adipose tissue glycogen levels and responses to carbohydrate feeding
*D.J. Rigden, A.E. Jellyman, K.N. Frayn and S.W. Coppack* 689

## Volume 44, Number 10, October 1990

**Original Communications**
Selenium status and absorption of zinc ($^{65}$Zn), selenium ($^{75}$Se) and manganese ($^{55}$Mn) in patients with short bowel syndrome
*B. Sandström, L. Davidsson, I. Bosaeus, R. Eriksson and N. Alpsten* 697

Effect of inositol hexaphosphate on retention of zinc and calcium from the human colon
*B. Sandström, Å. Cederblad, B. Stenquist and H. Andersson* 705

Relation of prepregnancy serum ferritin levels to hemoglobin levels throughout pregnancy
*M. Kaufer and E. Casanueva* 709

Basal metabolic rate in monozygotic and dizygotic twins
*C.J.K. Henry, S.M. Piggott, D.G. Rees, L. Priestley and B. Sykes* 717

A whole body transportable indirect calorimeter for human use in the tropics
*A. Charbonnier, C.D.R. Jones, Y. Schutz, P.R. Murgatroyd, R.G. Whitehead, E. Jéquier and G. Spinnler* 725

Natural Killer cell activity in alcoholic cirrhosis: Influence of nutrition
*F. Ledesma, S. Echevarria, F. Casafont, J.L. Lozano and F. Pons-Romero* 733

Resting and sleeping energy expenditure in the elderly
*E.W.H.M. Fredrix, P.B. Soeters, I.M. Deerenberg, A.D.M. Kester, M.F. von Meyenfeldt and W.H.M. Saris* 741

Estimation of body composition by bioelectrical impedance in cancer patients
*E.W.H.M. Fredrix, W.H.M. Saris, P.B. Soeters, E.F.M. Wouters, A.D.M. Kester, N.F. von Meyerfeldt and K.R. Westerterp* 749

Bedside and field methods for assessing body composition: Comparison with the deuterium dilution technique
*E. Pullicino, W.A. Coward, R.J. Stubbs and M. Elia* 753

Bioelectrical impedance, anthropometry and body composition in stunted and non-stunted children
*S.P. Walker, S. Grantham-McGregor, C. Powell, P. Fletcher and J.H. Himes* 763

**Book review** 769

## Volume 44, Number 11, November 1990

**Original Communications**
Nutritional surveillance as the backbone of national nutritional policy: recommendations of the IUNS Committee on nutritional surveillance and programme evaluation in developed countries
*L. Kohlmeier, E. Helsing, A. Kelly, O. Moreiras-Varela, A. Trichopoulou, C.E. Wolecki, D.H. Buss, E. Callmer, R.J.J. Hermus and J. Sznajd* 771

Inhibitory effect of oat products on non-haem iron absorption in man
*L. Rossander-Hulthlén, A. Gleerup and L. Hallberg* 783

Haemoglobin fortified cereal: a source of available iron to breast-fed infants
*E. Hertrampf, M. Olivares, F. Pizzarro, T. Walter, M. Cayazzo, G. Heresi, S. Llaguno, P. Chadud and A. Stekel* 793

Serum selenium in children during anti-cancer chemotherapy
*E-K Koskelo* 799

Changes in red cell insulin receptors during recovery from severe malnutrition
*H.M. Payne-Robinson, H.G. Coore, M.H.N. Golden and D.T. Simeon* 803

The diets of men in four areas of the UK: the Caerphilly, Northern Ireland, Edinburgh and Speedwell studies
*A.M. Fehily, M.E. Barker, M. Thomson, J.W.G. Yarnell, R.M. Holliday, K.A. Thompson, R. Elton, D. Bainton and I.A. Baker* 813

Can eating baked beans lower plasma cholesterol?
*L. Cobiac, R. McArthur and P.J. Nestel* 819

Nutrition in the management of HIV antibody positive patients: a longitudinal study of out-patient advice
*S. Dowling, F. Mulcahy and M.J. Gribney* 823

Evaluation of body fat estimated from body mass index, skinfolds and impedance. A comparative study
*B.L. Heitmann* 831

Food choice and caries experience in Dutch teenagers as a function of the level of education of their parents
*H.C.B. de Vries, T.P.C. Lucker, S.B.L. Cremers and M.B. Katan* 839

Excessive excretion of 5-oxoproline and decreased levels of blood glutathione in type II diabetes mellitus
*T.E. Forrester, V. Badaloo, F.I. Bennet and A.A. Jackson* 847

**Book review** 851

## Volume 44, Supplement 1, 1990

### Biology of Adaptation to Seasonal Cycling of Energy Intake

Edited by Anna Ferro-Luzzi

**Foreword**
*J.C. Waterlow* 1

**Original Communications**
Seasonality studies in three developing countries: introduction and background
*A. Ferro-Luzzi* 3

Seasonal energy deficiency in Ethiopian rural women
*A. Ferro-Luzzi, C. Scaccini, S. Taffese, B. Aberra and T. Demeke* 7

A collaborative EEC study on seasonality and marginal nutrition: The Glasgow-Hyderabad (S. India) study
*J.V.G.A. Durnin, S. Drummond and K. Satyanarayana* 19

Body weight changes and basal metabolic rates of rural Beninese women during seasons with different energy intakes
*W.J. Schultink, W. Klaver, H. van Wijk, J.M.A. van Raaij and J.G.A.J. Hautvast* 31

Seasonal energy stress in marginally nourished rural women: interpretation and integrated conclusions of a multicentre study in three developing countries
*A. Ferro-Luzzi* 41

Role of the sympathetic nervous system in adaptation to seasonal energy deficiency
*P.S. Shetty and A.V. Kurpad* 47

The possible role of skeletal muscle in the adaptation to periods of energy deficiency
*J. Henriksson* 55

The mechanisms for minimizing energy expenditure in human locomotion
*F. Saibene* 65

Effects of short term nutritional manipulation on organ size and fasting heat production
*L.J. Koong and C.L. Ferrell* 73

Body mass index and body energy stores in developing countries
*N.G. Norgan* 79

Seasonal fluctuation of BMR in populations not exposed to limitations in food availability: reality or illusion?
*H. Kashiwazaki* 85

Low energy expenditures in free-living populations
*J.V.G.A. Durnin* 95

Household coping strategies and contradictions in response to seasonal food shortage
*R.B. Thomas and T.L. Leatherman* 103

The integrated analysis of seasonal energy deficits: problems and prospects
*T.P. Bayliss-Smith* 113
